Release Overview

BirdDogHR is excited to announce the 2020.6 release for our customers. To aid with communicating updates on multiple modules, all enhancements and updates for the entire BirdDogHR Talent Management System are contained in this document. If you are interested in extending your license to include additional modules, please reach out to your BirdDogHR Account Manager for more information.

This release provides new features, enhancements to existing functionality, as well as resolutions to known issues intended to improve the usability, scalability, and performance of the BirdDogHR Talent Management System. This document will describe the software updates and provide details to help you get started with these enhancements.

Enhancements

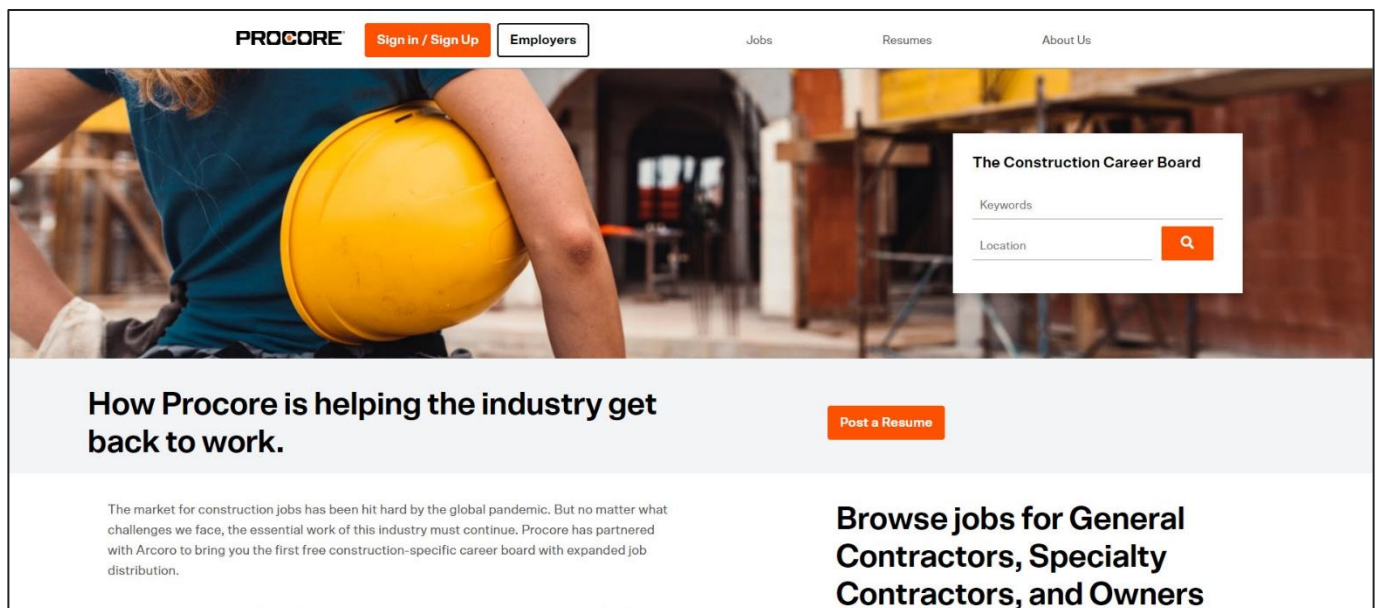

Applicant Tracking System Module

This release includes the following enhancement to the Applicant Tracking module:

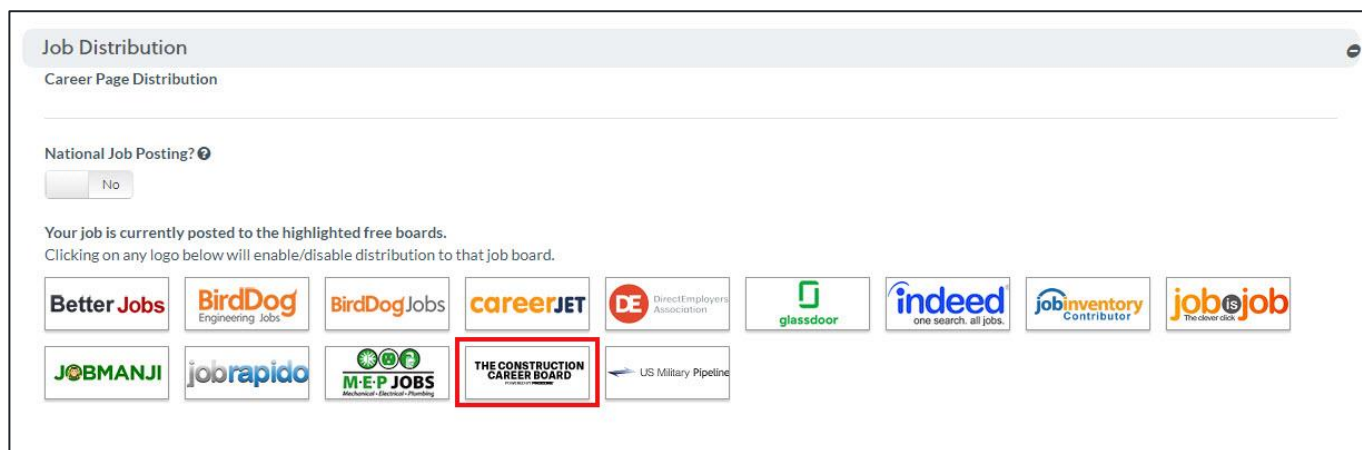

New Job Board: The Construction Career Board

A new job board, The Construction Career Board, was created in partnership with Procore and is now available to all BirdDogHR ATS customers. The Construction Career Board is an industry-specific job board that will help connect available workers with open positions in the construction space. Arcoro and Procore have partnered to bring this job board to life to help with today's job market by creating new resources for job seekers and employers.

The Construction Career Board can be viewed at <https://www.procoreConstructionJobBoard.birddoghr.com>

The Construction Career Board is available as a free board in the job distribution area when posting a job and a requisition. The board will be on by default for every job posting but can be disabled by clicking on the job board tile. Jobs posted to The Construction Career Board will be posted to the board and to the career area on Procore's website, extending the reach of the posting.

Additional Enhancements

This release includes the following minor enhancements:

Enhancement	Description
"Complete" Option: GET Employee Document API	A "complete" option has been added as a document type to the GET Employee Document API. When used, the Complete Employee File will be retrieved via the API.
TazWorks Update	TazWorks updated their self-authenticating link used to get results in the ATS. We updated our system to call TazWorks each time the results link is used, allowing users to view results in the ATS as they would previously.
Country of Issuance Dropdown	Updates were made to I-9 Country of Issuance dropdown in Onboarding to include Eswatini and North Macedonia

Supported Browsers

The BirdDogHR Talent Management System is designed to provide browser-neutral service delivery. It is recommended that you use modern browsers, as we make every attempt to support the latest versions of the following browsers.

Browser	Version
Microsoft Internet Explorer (not compatibility mode)	11
Microsoft Edge	Latest*
Mozilla Firefox	Latest*
Google Chrome	Latest*
Apple Safari	Latest*

* Browser updates occur on a schedule outside of our release process and we cannot control issues as a result of a recent browser update. Our overall strategy is to maintain active browser support based on demand. Regardless of formal browser support, we will always troubleshoot and correct issues impacting users to the best of our ability within reasonable means.

Mobile Device Support

BirdDogHR views mobile device support as a critical capacity for our customers and we continue to add functionality to enhance the user experience on mobile devices. However, with many different devices and device specific software, it is impossible for BirdDogHR to test against every possible combination. With any questions or concerns, please feel free to contact our support team.

Technical Support

For technical assistance for any of our modules, contact support staff at:
