## Release Overview

Arcoro is excited to announce the March 2022 release for our customers. This release provides new features and enhancements to existing functionality intended to improve the usability, scalability, and performance of the system. This document will describe the software updates and provide details to help you get started with these enhancements.

## New Features

### 2022 State Form W-4 Update

The following states have released updates to their State Form W-4 for 2022. The following states have been updated across the Arcoro Onboarding module with the released 2022 State Form W-4:

- California
- Colorado
- Connecticut
- District of Columbia
- Iowa
- Kentucky
- Maine
- Minnesota
- Nebraska
- Oregon
- Wisconsin

We will continue to monitor the updates for other states that provide an updated State Form W-4 and update those accordingly. You will be notified of additional updates in future release notes.

### Update on Browser Support

**Microsoft IE V11 is no longer supported by Microsoft. Upgrade to Microsoft Edge to take advantage of the latest features, security updates and technical support. Beginning June 15, 2022, Arcoro will no longer support Microsoft IE V11.**

### Supported Browsers

The Arcoro platform is designed to provide browser-neutral service delivery. It is recommended that you use modern browsers, as we make every attempt to support the latest versions of the following browsers.

Browser	Version
Microsoft Internet Explorer (not compatibility mode)	11**
Microsoft Edge	Latest*
Mozilla Firefox	Latest*
Google Chrome	Latest*
Apple Safari	Latest*

\*Browser updates occur on a schedule outside of our release process and we cannot control issues as a result of a recent browser update. Our overall strategy is to maintain active browser support based on demand. Regardless of formal browser support, we will always troubleshoot and correct issues impacting users to the best of our ability within reasonable means.

\*\* MicroSoft will EOL IE 11 on June 15, 2022. We will communicate that after 6/15/2022 any issues reported using IE 11 will not be supported

### Mobile Device Support

Arcoro views mobile device support as a critical capacity for our customers and we continue to add functionality to enhance the user experience on mobile devices. However, with many different devices and device specific software, it is impossible for Arcoro to test against every possible combination. With any questions or concerns, please feel free to contact our support team.

Technical Support

For technical assistance for any of our modules, contact our support staff at:
